As of June 29, 2012 when the Congress passed the Moving Ahead for Progress in the 21st Century Act (MAP-21), the BMC-84 freight broker bond requirement is now \$75,000. A freight broker acts as an intermediary between a party that needs shipping services and an authorized motor carrier. The freight broker bond guarantees that the broker will pay carrier invoices in a timely manner. Because the freight broker is acting as a fiduciary and the freight broker bond is a financial guarantee, an applicant's personal credit and financial statement(s) are important to underwriting and rating decisions. We offer non-standard program to applicants that have damaged credit or may not have had the opportunity to develop a consumer credit history. We decline no application, but rather offer terms that fit each applicant. See more at www.SuretyOne.com.
